

Christmas Cactus Care

- Bright, indirect light
- Well drained soil
 - Allow soil to dry out between waterings
- Prefers to be root bound
- Fertilize at half strength every 1 to 2 months between April and September
- For best reblooming, count back 8 weeks prior to desired bloom time:
 - Keep temperatures between 55°F and 65°F
 - Bright daytime light
 - Provide 13 hours of uninterrupted nighttime darkness
